

*It's the things you don't see  
that make all the difference.*

*Our business is cleaning and  
waste management services.*

*It's not surprising, then, that  
what people don't see  
makes all the difference.*

*We make our clients' waste  
problems disappear so patrons  
see only the best at events  
and venues.*

*But, it's also what our clients don't  
see that makes all the difference.  
Our commitment to our personnel,  
our careful planning, our expertise  
in logistics, our vast worldwide  
experience and our obsession  
with quality are the unseen drivers  
of our approach.*

*The message to our clients  
is crystal clear:  
If all that your patrons  
remember is the  
excitement of your event  
or the comfort of your  
venue, then we've done  
our job well!*

*It's the things  
you don't see that  
make all the difference*
